DETAILED ACTION

Response to Amendment

Examiner acknowledges the amended claims 1, 3, 10, 20, and 23 filed 6/19/2006, currently claims 1-29 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Giambattista et al. (EP0937476). Giambattista et al. discloses a low-cost medication delivery pen.

Regarding claims 1-29, Giambattista et al. discloses an injector with a lead screw, driver, and a reset ring for adjusting the dosage (Figure 1). Giambattista et al. discloses a reset ring (Figure 3) that has an annular rim, protruding spline, and stop formed within a keyway (Figure 1). A cartridge is present within the driver device (Figure 1). Giambattista et al. discloses an injection device with a reset ring with (Figure 1) that has an annular rim, protruding spline, and stop formed within a keyway (Figure 3). Medication can be dispensed from the device and allows for repeat doses (see

abstract). The device allows for both movements relative to the driver and plunger for dose settings via the knob control (Figure 1).

Response to Arguments

Applicant's arguments, see Remarks, filed 6/19/2006, with respect to the rejection(s) of claim(s) 1-29 under Gabriel (5,591,136) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Giambattista (EP0937476).
